Re: CERCLA 104 (e) Request for Information Related to Omega Chemical Corporation Superfund Site; Earl Manufacturing Co., Inc.; and Real Property Located at 11862 Burke St., Santa Fe Springs, CA 90670

Dear Mr. Bentley:

The United States Environmental Protection Agency ("EPA") is spending public funds to investigate and respond to the release or threatened release of hazardous substances into the soil, groundwater and indoor air at the Omega Chemical Corporation Superfund Site (the "Site"). The Site includes the former location of a used solvent and refrigerant recycling, reformulation, and treatment facility ("Omega Chemical") located at 12504 and 12512 Whittier Blvd. in Los Angeles, California. The term "Site", as used herein, refers to both the former Omega Chemical property and the areal extent (i.e., plume) of contaminated groundwater emanating from the Omega Chemical property.

In order to facilitate cleanup of hazardous substances at the Site, EPA divided the Site into three operable units ("OUs"): OU-1, OU-2 and OU-3. OU-1 is the former Omega facility and vicinity. OU-2 is the extent of commingled contamination in groundwater that is generally downgradient from the former Omega facility and now extends more than four miles downgradient of OU-1. The contamination in groundwater has commingled with chemicals released at other source areas. OU-3 refers to indoor air contamination from the Omega Site that has occurred in several buildings near the Omega Chemical property.

Groundwater investigations to date suggest that operations at various facilities in the area, in addition to the former Omega Chemical facility, have contributed to groundwater contamination through the use of volatile organic compounds ("VOCs"), including perchloroethylene ("PCE"), trichloroethylene ("TCE"), Freons 11 and 113, and other contaminants.

As part of its ongoing investigation of the Site, EPA is seeking to determine the nature and extent of contamination at the Site, to assess the effects of contamination on the environment and public health, and to identify activities and parties that have or may have contributed to contamination at the Site. EPA believes that you may have information that may assist EPA in its investigation.

We request that you provide a complete and truthful written response to this Information Request and questions in Enclosure B **within thirty (30) calendar days** of your receipt of this letter. Instructions on how to respond to the questions are described in Enclosure A. Please return your written response to:

Keith Olinger, SFD-7-5
U.S. Environmental Protection Agency, Region IX
Superfund Division
75 Hawthorne Street
San Francisco, California 94105

Under Section 104(e) of the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"), 42 U.S.C. §9604(e), EPA has broad information-gathering authority which allows EPA to require persons to furnish information or documents relating to:

- (a) The identification, nature, and quantity of materials which have been or are generated, treated, stored, or disposed of at a vessel or facility or transported to a vessel or facility;
- (b) The nature or extent of a release or threatened release of a hazardous substance or pollutant or contaminant at or from a vessel or facility; and
- (c) Information relating to the ability of a person to pay for or perform a cleanup.

Please note that your compliance with this Information Request is mandatory. Failure to respond fully and truthfully may result in an enforcement action by EPA pursuant to Section 104(e)(5) of CERCLA, 42 U.S.C. §9604(e)(5). This statutory provision authorizes EPA to seek the imposition of penalties of up to \$37,500 per day of noncompliance. Please be further advised that provision of false, fictitious or fraudulent statements or representations may subject you to criminal penalties under 18 U.S.C. §1001. The information you provide may be used by EPA in administrative, civil or criminal proceedings.

Some of the information EPA is requesting may be considered by you to be confidential business information ("CBI"), as described in Title 40 of the Code of Federal Regulations, Subchapter A, Part 2, Subpart B (40 C.F.R., §2.201, *et seq.*). Please be aware that you may not withhold the information upon that basis. If you wish EPA to treat the information confidentially, you must advise EPA of that fact by following the procedures outlined in Enclosure A, including the requirement for supporting your claim for confidentiality. Please be aware that EPA will maintain information consistent with the Privacy Act of 1974, 5 U.S.C. §552a, as amended.

This request for information is not subject to review by the Office of Management and Budget (“OMB”) under the Paperwork Reduction Act because it is not an “information collection request” within the meaning of 44 U.S.C. §§3502(3), 3507, 3512, and 3518(c)(1). See also 5 C.F.R. §§1320.3(c), 1320.4, and 1320.6(a). Furthermore, it is exempt from OMB review under the Paperwork Reduction Act because it is directed to fewer than ten persons. 44 U.S.C. §3502(4), (11); 5 C.F.R. §§1320.4 and 1320.6(a).

Your response should include the appropriate name, address, and telephone number of the person to whom EPA should direct future correspondence in regard to this matter on behalf of your company.

If you have questions regarding this Information Request, please contact Steve Berninger, Assistant Regional Counsel, at (415) 972-3909, or Keith Olinger, Enforcement Officer, at (415) 972-3125. We appreciate and look forward to your prompt response to this Information Request.

Sincerely,
